

## DIVIDEND PORTFOLIO

The Dividend portfolio targets businesses paying sustainable dividends and offers investors the option of receiving a targeted income of 2% - 4% from the portfolio. The Dividend portfolio has a greater emphasis on underlying companies' ability and sustainability of dividends and, in turn, includes more mature businesses, which should subsequently offer greater protection against market volatility.

The portfolio consists of 25 to 40 stocks that have passed Unicorn's proven and rigorous selection process and have been independently assessed as to their likely suitability for Business Relief. The companies are spread across various investment sectors to provide diversification, thereby helping to ensure the portfolio is not overly exposed to either one particular company or investment sector.

## UNICORN

The portfolio is constructed utilising the investment research and stock selection capabilities of a third-party specialist, Unicorn Asset Management Limited (**Unicorn**). After assessing and analysing a broad number of asset managers in the AIM IHT market, we have chosen to partner with Unicorn due to their speciality, extensive expertise, and long-term track record in smaller UK, AIM listed companies.

The Unicorn investment team is well-resourced, committed and highly knowledgeable with extensive experience. Unicorn manages over £308m across open-ended funds and Venture Capital Trusts (VCTs) of which a significant proportion is in AIM listed stocks (as of May 2023).

The team's robust investment process has led to them winning numerous awards. Their approach differs from many other AIM and smaller company managers as the team conducts much of its research in-house and looks to target "best of breed" companies in established markets that are profitable at the time of investment.

## AIM IHT INVESTMENT SELECTION TRACK RECORD

### Performance

%	YTD	1 Year	3 Years	5 Years	Since Inception
<b>Dividend Portfolio</b>	3.6	5.1	-19.5	-6.0	20.1
<b>Numis Alternative Markets Index</b>	5.6	3.4	-33.6	-11.9	21.0

*The Portfolio Performance is the average weighted performance of all portfolios held within the service net of all ongoing fees*

### Past Performance – Since Launch

01/04/2016 – 31/05/2024. Past performance is not a guide to future performance, performance is based on returns net of fees. Your capital is at risk, the value of investments and the income from them may go down as well as up. Investors may not get back the amount of their original investment.

## MANAGEMENT COMMENTARY

The AIM IHT Dividend Portfolio recorded a total return of +3.0% in May. In comparison, the benchmark Numis Alternative Markets Index registered a total return of +5.3% over the same period. Underlying portfolio returns for individual clients will vary depending on the timing of their investment.

The best performing stock in May was Johnson Service Group, which registered a total return of +29.2%. In its latest trading update, Johnson Service Group reported a strong Q1 2024, with revenue up 16% year-on-year to £114 million, driven by both organic growth (8.9%) in its Hotel, Restaurant & Catering (+13.5%) and Workwear (+0.5%) sectors, and continued healthy demand from its largest customer, Premier Inn, which is also expanding. The company also highlighted a material decrease in energy costs, which is expected to translate into a £3m boost to its EBITA.

The worst performing stock was Eckoh, which registered a total return of -18.7%. In its recently released full-year trading update, Eckoh, the provider of Customer Engagement Data security solutions, reported revenue levels slightly below market expectations, due to an ongoing transition of client deployments to the cloud and extended sales cycles. However, with the accelerated pace of cloud transition, Eckoh anticipates improved revenue visibility and better margins in the future.

## SECTOR ALLOCATION

## IMPORTANT NOTICE

This document is has been issued for the purposes of Section 21 of the Financial Services and Markets Act 2000, by Credo Capital Limited (**Credo**) who is authorised and regulated by the Financial Conduct Authority (**FCA**), FRN 192204 and is a member of the London Stock Exchange. Any decision to invest in the Credo AIM IHT Service should be made solely by reference to, and strictly in accordance with, the information contained in the terms we have agreed or will agree with you for the provision of investment services. This document should not be regarded as constituting advice in respect of legal, taxation, investment or any other matters. Prospective investors should discuss this service with us before considering any investment. The value of an investment, and any income from it, can fall as well as rise as result of market and currency fluctuations and you may not get back the amount originally invested. Investment in the securities of smaller and/or medium sized companies can involve greater risk than is customarily associated with investment in larger, more established companies. The market for securities in smaller companies is often less liquid than that for securities in larger companies, meaning above average price movements both positive and negative can be expected. The tax benefits of investing in AIM companies are subject to changes in legislation and may not continue in the same form. Past performance is not indicative of future performance and should not be relied upon. Please note that the AIM IHT Investment Selection Track record included in this document is the track record of Unicorn Asset Management Limited (**Unicorn**), using their specialist investment research and stock selection capabilities and has been issued by them for the purposes of Section 21 of the Financial Services and Markets Act 2000. Unicorn is authorised and regulated by the FCA and Credo has not approved their Portfolio Performance.
